Department Circular No. 6/2004

To all Directors, Provincial Directors and
Veterinary Surgeons

Farm Identification

It has been decided to revise the farm numbers allocated to small holder farms island wide since the existing identification numbers are not in order. New identification numbers will facilitate range wise identification of farms.

New numbers will be allocated as in the example indicated below.

Eg.

If the range code number is 250
1st farm registered will be 2500001
10th farm registered will be 2500010 and the
100th farm will be 2500100

This numbering system should be implemented from 1st January 2005. All numbers used so far are hereby cancelled.

(Handwritten signature)
