## General Information of the farm

- Province-
- District-
- VS range-
- Name and address of the farm-
  
- Telephone number-
- Farm registration number-
- Land area of the farm-
- Staff-

## Current Status of the Farm

- Objective of the farm-
- Type of goat breed/s reared-
- Presence of goats with Boer inheritance- Yes/ No
  
- If Yes, Boer inheritance %-
  
- Herd composition of Boer breed-

	Adult(over one year)	Young (age between 04-12months)	Kid(age below 03 months)	Total
Male				
Female				
Total				

- **If other breeds are available-**

- Herd composition of Jamunapari breed-

	Adult (over one year)	Young (age between 04-12 months)	Kid(age below 03 months)	Total
Male				
Female				
Total				

- Herd composition of Saanan breed-

	Adult (over one year)	Young (age between 04-12 months)	Kid(age below 03 months)	Total
Male				
Female				
Total				

- Herd composition of other breeds-

	Adult (over one year)	Young (age between 04-12 months)	Kid(age below 03 months)	Total
Male				
Female				
Total				

- Types of records maintained-

- Availability of animal identification system-

- Type of management system-

- Average birth weight-male-                      female-

- Average body weight of young –male-                      female-

- Age at weaning-

### Goat shed information

- Type of goat shed-
- Availability of separate goat houses for separate groups-Yes/No

### Feeding

- Type of feed-Pasture-  
Legume-  
Concentrate-  
Mineral-  
Milk replacer-
- Availability of Totally Mixed Ration(TMR) –Yes/No
- Use of chopped grass- Yes/No
- Water availability-

### Reproductive Status of theFarm

- Current breeding method-Natural service-                      AI-
- Total no. of breedable females-
- Total no. of lactating females-
- No. of studs used for breeding-
- No. of does per buck-
- No. of kidding /year-
- No. of kids born/year-
- Age at 1<sup>st</sup> kidding-

- Kidding interval-
- Culling age of the doe-
- Maintaining of replacement stock- Yes / No
- How to prevent inbreeding-

Routine Health Programs

- Deworming- Yes / No
- FMD / Tetanus vaccination- Yes / No
- Other-
